

FocalPoint Software in the Cloud

Have you ever thought about having FocalPoint Software accessible at any time without having a server? Use FocalPoint Cloud (FPC) not only to run your business but also for remote access to FocalPoint Software through any Android, iOS device or a remote laptop. Write contracts, work orders, process returns, capture signatures, and enjoy all of the features and programs FocalPoint offers all on the go!

-  No in house server means no maintenance hassles, automatic backups, no worries.
-  Less up-front expense and easy setup.
-  Access from anywhere when there's an internet connection.

The screenshot displays the FocalPoint software interface. On the left, the 'Order Creator' window shows a list of equipment items with columns for Description, Location, Equip ID, Store, Qty, Rent, Shop, Trans, Avail, Minimum, and Daily. Below this is a table with columns for Type, Item, Description, Amount, and Quantity. On the right, the 'Dashboard' window shows a summary table with columns for Merchandise, Cogs, Sales Tax, Gross \$, and Avg Tran. Below the dashboard is a 'Work Orders' window with a bar chart showing utilization percentages for different time periods: Month to Date, Year to Date, Last 6 Months, Last 12 Months, Year 2018, and Year 2019. The bar chart shows values of 10000, 10000, 10000, 10000, 10000, and 10000 respectively. Below the bar chart is a table with columns for Utilization Percentage and Utilization Cost Percentage.

Please contact Visum for pricing and setup details.
