

Internet-Based Customer Portal

Visum is proud to offer optional, internet-based features that allow customers to view and interact with customer-specific FocalPoint information.

This feature enhances communication with your customers, while providing exposure to your website and company. All of these features are totally secure and under your control. Not only will you receive valuable feedback, but you'll be able to effortlessly present important information such as:

-  Accounts Receivable Balances
-  Reservations
-  Invoices (Open and Paid)
-  Exposure to Your Website
-  Open and Closed Contracts
-  Drill-Down Options for Order and Invoice Detail

Please call Visum for pricing and additional technical information.
